# Haredi TA rally draws only a few hassidic sects

ered at the Tel Aviv Fair Grounds fast night in a rally billed as a protest against the desecration of Shabbat and High Court of Justice rulings.

VOLUME LXIII, NUMBER 19447

However, there were no fireworks from the speakers, and those gathered represented only a few hassidic groups.

Arye Frenkel, a haredi activist, said the gathering was "a failure." "It is only Gur and Vizhnitz hassidim. What they are telling the people of Israel is that if you think that the Shabbat belongs to every-one, it really only belongs to Gur and Vizhmitz alone," he said. Frenkel pointed out that there

were virtually no "Lithuanians," no Sephardim, and not even any Habad hassidim at the rally. Outside the Fair Grounds, several groups held protests, including Meretz and Campus, a left-wing student group.

Galit Yuri, a demonstrator representing Campus, said she was there to demand a separation of religion and state. She said she too had objections to some High Court rulings, but that the haredim had to accept the rule of law. She especially called on haredi women to come and protest, in view of the fact that the organizers of the demonstration had stated that it was "a boly gathering" and women should not be present.

"Even if they protest against me, I am calling them to rise up against their husbands and come out and demonstrate," she said.

Perhaps the most militant of the speakers was Shas mentor and former Sephardi chief rabbi Ovadia Yosef, who told the gathering that "a Jew who desecrates the Sabbath is to be considered the same as a goy."

Yosef said that, a few days ago, he met with Tel Aviv Mayor Romi Milo, to press for the case of new immigrants whom he said had been forced to work for the municpromised him that Jews would no that," he said. longer have to work on Shabbat,

If we have troubles, they are on y because of the desecration of Shabbat," Yosef said.

Vizhnitz Rebbe Moshe Yehoshua Hagger pointed out that observant lews were forbidden to drink wine which had been touched by a Jew who desecrated Shabbat. "I have been in Israel for 50 years, and I haven't seen a spiritual decline such as we are experiencing oow."

Secular Jews know nothing of Judaism, be said. They are not aware of any Jewish values. Their

idea of Shabbat is going to Eilat. Hagger was highly critical of any compromise regarding traffic on Jerusalem's Rehov Bar-Ilan which would only prohibit traffic during Shabbat services. "After shul, they're allowed to drive?" he asked.

Apparently speaking mainly to the television audience, Ashkenazi Chief Rabbi Yisrael Lau said he was appealing to "my brothers

"Perhaps," he said, "the failure to respect Shabbat is because all the ooo-religious know of it is prohibitions." He then went on to describe a family Shabbat celebra-tion in detail, with singing and children discussing the Torah.

Lau noted that when he spoke of

Shabbat desecration, he was not referring only to Tel Aviv, but to the growing number of shopping malls around the country that are open on Shabbat, "There are hundreds of people buying in these malls, but there are hundreds of people selling as well." # Bill to keep religious councils Orthodox passes first reading

THE Knesset vesterday passed a first reading of a private member's bill by MK Avi Yehezkel (Labor) which states that only Orthodox Jews should be allowed to sit on

local religious councils. The bill, which passed 22 to 5, raised the ire of Meretz parliamentarians, one of whom called it "a declaration of war."

Among those who opposed the bill were coalition MKs Yehuda Harel (Third Way) and two MKs from Yisrael Ba'aliya. Several opposition MKs left the plenum rather than vote on the bill.

Yehezkel said he intends to submit a similar bill calling on the religious affairs minister to establish alternative councils for Masorti and Reform Jews.

The Orthodox don't get on with the Reform [Jews] and there is no point in mixing the different types," said Yehezkel. "A different answer must be found for the Reform and other streams of Judaism."

Deputy Religious Affairs Minister Yigal Bibi, answering for the government, praised the bill, describing it as "the first swallow of spring to come from the Labor

party's direction." MK Amnon Rubinstein (Meretz) responded angrily to the passing of the bill saying, The Labor

Party has lost its mind in its courting the haredim. The Labor Party is proposing a bill that even the haredim didn't dare propose. This bill is a declaration of war on the Jews of North America and also harms all the principles of equali-

ty and democracy.' The Third Way also objected in the name of equality. Harel said the bill violates the status quo. The Third Way will do everything to stop the bill from passing second and third reading. We call the Labor Party and Avi Yehezkel to order, and ask that they prevent such activities in the future. They are a declaration of war on a large

part of world Jewry," said Harel.
Jewish Agency head Avraham Burg sent a letter to Labor leader Shimon Peres, secretary-general Nissim Zvilli and Cohen saying he was "shocked and astounded" by the bill, and "wonders if Yehezkel himself understands the implications which go far beyond Israeli politics." He said it would lead to cutting off the majority of Jews in

the world who are non-Orthodox. Hemdat, the Council for Freedom of Science, Religion and Culture in Israel, also issued a statement condemning the bill for "discrimination and creating firstclass and second-class citizens."

"The term liquidation unit is a mistake. This is a regular IDF force, a good unit and operates only in uniform. It doesn't act against civilians, nor with the aim of capturing criminals. It is a military unit which fights terrorists and the Hizbullah organization which operates a guerrilla force," said OC Northern Command Maj.-Gen. Amiram

Egoz fighters and commanders brushed off the report as propaganda. "I wouldn't call it a liquidation unit, but when you encounter two or three terrorists from a range of five meters and kill him, then you bave killed him," said the unit commander, identified only as Lt.-

Levine said the idea to set up Egoz broke a generation-long IDF tradition oot to cultivate units which specialize on just one front against a single enemy.

"Our weakness was that we didn't get specific training and expertise on fighting Hizbullah terrorists. The situation in Lebanon demands this so it was important

that this specialized unit be set up to deal with this unique front,"

"We have bad very nice achievements," Levine said at a briefing for military reporters at a training base in northern Israel. On their very first mission, the unit wiped out a Hizbullah squad, killing two gunmen. It has 16 verified kills, but also suffered casualties and has lost two of its own members and others have been wounded.

Lt.-Col. E, said his unit was able to deploy quicker than other combat units because they knew the terrain and were fine-tuned to Hizbullah tactics and moving patterns. The US believes that such a move would undercut its efforts to win support for Israel among Arab countries after a Hebron deal, sources say.

# Local councils strike for promised funds

BATSHEVA TSUR and DAVID RUDGE

HUNDREDS of thousands of children are expected to miss classes today as most of the country's local councils strike to protest what they say is the government's refusal to pay them the NIS 2 billion it has promised. Adi Eldar, chairman of the Local Councils Union, announced the strike yesterday at the end of a three-day seminar for council heads at Beit Hanassi. Later, the mayors of Jerusalem, Tel Aviv. Ramat Gan, Herzliya, Ramat Hasharon and Petah Tikva declared that they would not

participate in the strike. The Union of Local Authorities said it assured parents and teachers that kindergartens and schools would be open for Hanukka parties. In places where the strike is in effect, it will not impact special education, garbage collection, or emergency services.

Eldar used the forum provided by the Beir Hanassi gathering to launch

an attack on the government. "The Treasury is hitting us below the belt," he said. The prime minister made promises but is not keeping them. He asked us m give him three weeks, but a month has already passed. We are beginning a strike tomor-

row, and we have patience. We are fighting for the lives of our citizens." He said the councils were demanding an additional NIS 2 billion. This sum is necessary for education and welfare services, which should be paid for by the government," he said.

Asked by President Ezer Weizman, who hosted the gathering, how much would go to the Arab sector, Eldar replied: "NIS 350 million."

Haifa Mayor Amram Mitzna, the mayor of the only one of the three largest cities to participate, said that "it is better [for the government] to promise less but m keep these promises." There have to be clear-cut criteria on local council funding, he said, and no one should have to beg for handouts.

Mitzna said there was a growing gulf between the central government and the local councils, and he praised Weizman for taking an interest in local affairs and traveling to visit all different parts of the country.

Weizman, who has visited many of the local councils, praised the council heads for being "our commanders out in the field." He noted that they have to deal with the problems of 5 million citizens daily in every

# Prisoner shot dead by Jericho jail guard

Jericho jail was shot dead by his guard Tuesday night, the second of six suspects held there for a Hamas activist's murder who have died in

Police said that Rashid Fityani, 20, was killed when he argued with his guard and the guard opened fire. The guard was arrested for questioning about the shooting and "legal steps will be taken against him," the police told Fityani's family during a midnight visit to their home and later in a press confer-

The killing did not appear to follow torture, or to have been planned. Suhaila Siyuri, the mother of Hazem and Yassur, two brothers arrested with Fityani for the murder of Jerieho Hamas activist Ibrahim Yaghi in Akabat Jaber refugee camp, saw Fityani alive and in apparent good health a few hours before his death.

Fityani was arrested on January 15, 1995 together with five others for Yaghi's murder a month earlier. All six were held without trial since then. One of them, Salman Jalaita, 42, died two days after his arrest,

Also mentioned were Likud legal adviser Eitan Haberman and retired judge Uti Struzman, who had been overseeing and refereeing internal Likud affairs and supervising the party primaries.

This didn't keep out of speculation the oames of jurists politically distant from the present government, like attorney Amnon Zichroni, law professor Uriel Reichman, and State Attorney Edna Arbel

But Likud sources last night warned against what was termed a media hype of a contest that hadn't begun and which may never take place. The post of attorneygeneral, it was maintained, is one which calls for particular trust with the government so the ultimate choice will have to be Netanyahu's.

Justice Minister Tzahi Hanegbi said yesterday evening that he had seen no "secret list of candidates." and doubts one exists.

THE Knesset Committee on the Status of Women took a commercial break vesterday. The committee, chaired by MK Yael Dayan (Labor), examined how women are portrayed in advertising, and it did not like what it saw.

Anat Hoffman, a Jerusalem city councillor who has spent several years researching the subject. showed the committee a selection of pictures from Channel 2 that were taken on a single day, and others from magazines and newspapers.

She said the subliminal message of the photos was that women are either hysterical, as in one ad that showed a woman scared hy a windup cockroach, or that they fall easily into the arms of a waiting man, like the commercial for Lunch.

Other ads showed women as sexual temptresses, as in the Rosemarie chocolate ad which shows a model putting a finger in her mouth "in the same acoon that can be found in pornographic magcan be found in pornographic mag-azines. When they are not por-trayed this way, they can be found deep in infanole reflection on cleaning products," Hoffman said. Hoffman said the commercials all violated the law which bans the Channel 2 franchise owners from displaying sayual highs or harming

Representatives from advertising

agencies and Channel 2 companies rejected Hoffman's claims and said the public did not see the ads the way she did. They said there needs to be very solid grounds for a commercial to be banned.

Ayelet Metzger, director of adverrising for the Second Television and Radio Authority, told the committee that some 2 percent of commercials had been banned since Channel 2 was established. "(But) it has not yet been unequivocally established that subliminal messages do influence the public."

Representatives from women's groups asked that commercials over which there is even an element of doubt about harming women or encouraging violence be removed from the screens without waiting for complaints from the public, which for the most part is passive about responding.

"We have come a long way since five years ago when women were seen tied up or in handeuffs," said Davan, but she asked for greater cooperation between the advertisers, Channel 2 and the committee.

A COURT yesterday rejected demands for new elections by Serbian opposition parties who are waging street protests against President Slobodan Milosevic after accusing his ruling socialists

A verdict in Zajedno's favour would have allowed both sides to fight a deciding round of elections and reduced growing Western pressure on Milosevic.

The court said there could be no appeal against its decisioo and Zajedno legal expert Mirko Mihailovic acknowledged: "Not much more is to be expected from the regular legal procedure."

The socialists, whose rule in Yugoslavia has been uobroken since World War II, overturned Zajedno victories in the November 17 elections and claimed they won a rerun of the ballot.

# Zairean rebels kill, capture Rwandan Hutu leaders

BUCHIZYA MSETEKA

ZAIREAN rebels have either killed or captured and sent back to Rwards most commanders in the 45,000-strong Hutu army of the previous Rwandan government, a Huru politician said yesterday

Rwandan government, a ruttu pointerair sair yestelay.

Seth Sendashonga, a former minister in Rwanda's Tutsi-led government oow in exile in Kenya, told Reuters the rebels also killed many senior Hutu politicians who served in Rwanda's last government before Rwandan Tutsi rebels seized Kigali in 1994.

Rwandan Tursi receis series in Right Raily for the Return of Refugees and An exiled Hutu lobby group – the Raily for the Return of Refugees and Democracy in Rwanda (RDR) – said yesterday five other prominent Hutus were killed in rebel attacks in eastern Zaire and many were missing. That [Hutu] army has been completely destroyed. Surviving troops are

roaming the jungle of Zaire without a command structure and without a political or military objective. The objectives of the Rwandan government have been achieved." Sendashonga said in a telephone interview.

In October the Zairean rebels seized the Zairean border towns of Bukavu, Uvira and Kamanyola, where the commanders and politicians

had been living in exile.

He added "Many more were captured by the rebels, who then buried them over to Rwanda where they are oow under arrest."

The Rwandan authorities are likely to try them for their role in the genocide of 1994, when Hum militants killed about one million Tense and moderate Hutus.

Sendashonga, a highly respected Hutu politician and intellectual, said the Hutu army commander, Maj. -Gen. Augustine Bizimungu, abandoned his forces in Goma and fled to the Zairean capital Kinshasa. The whereabouts of Bizimungu's deputy, Brig. -Gen. Gratien Kabiligi, remain unknown, Sendashonga said. Kabiligi was in charge of operations for the exiled army.

#### NEWS IN BRIEF

Grenade blast kills 7 in Kashmir SRINAGAR, India (AP) - A grenade exploded at a public rally for a oewly elected communist lawmaker vesterday, killing seven people and injuring 40, officials said.

Police blamed Kashmiri militants, but there was no claim of responsibility and no arrests were made.

The lawmaker, Mohammed Yusuf Tarigami, said he escaped with bruises. He said militants fired gunshots and then hurled a grenade after he bid goodbye to the 4,000-strong crowd in Kulgam, 70 kilometers south of Srinagar, summer capital of Jammu-Kashmir

Dozens of separatist groups in Kashmir want the state to break away from India. Jammu-Kashmir is the only Moslem-majority state in predominantly independent India. More than 14,500 people have been killed since the insurrection began in 1989.

Bomb explodes outside Karachi hotel KARACHI, Pakistan (AP) - A powerful bomb exploded yesterday across the street from a five-star hotel frequented by tourists to this southern port city.

Twelve people were injured, four of them critically, authorities said. They said dozens of received minor injuries from flying glass, but none of them were bospitalized.

The bomb was planted in a flower bed ootside an eight-story office building, located across the street from the Sheraton Hotel, said Mocen Uddin, of the police bomb disposal squad.

This was the second explosion in Pakistan in as many days. At least 80 people have been killed in bomb explosions in Punjab province in recent months.

Argentina ups reward for info on bombings BUENOS AIRES (Reuter) – Argentina this week raised to 53 million the reward it is offering for information on two bomb attacks on its large Jewish community in 1992 and 1994, which

killed a total of 115 people.

Interior Minister Carlos Corach announced a \$1 million, or 50 percent, raise in the Protection Fund Against International Terrorism to pay a "reward for whoever helps clear up the terrorist

attacks against the Israeli Embassy and the AMIA."

A car-bomb attack on the AMIA Jewish community center in Buenos Aires in July 1994 killed 86 people, injured hundreds more and reduced the building to rubble, Two years earlier, a bomb blast at the embassy killed 29 people.

No arrests have been made for the 1992 bombing. A dealer in stolen cars and four policemeo have been indicted for allegedly providing the vehicle used in the 1994 attack, but the bombers themselves have not been found.

Stephanopoulos to teach at Columbia NEW YORK (AP) - George Stephanopoulos, one of President Clinton's closest advisers, said yesterday he will teach political

science at Columbia University after leaving the White House early "It's the right time to take a break," said Stephanopoulos, 35, at a news conference at the university. He said Clinton "has been very

supportive." He will be a visiting professor on a two-year appointment

beginning in January, but will not begin classroom work until the fall, when he plans to lead a seminar, to be followed in the spring of 1998 by a lecture class.

1996 a boom year for British tourism
LONDON (Reuter) - Britain is attracting increasing numbers of tourists as its reputation as a center of style and culture grows, the government said yesterday.

The latest figures for 1996 from the Department of National Heritage for 1996 show a surge of 11% in overall visitors to 20.4 million and a 7% increase in spending compared to the same period. million and a 7% increase in spending compared to the same period

# Beware The Bible rewritten – for children Contractor's There are several things that distinguish Pitspopany Press's Jewish Children's ing the men of Shechem the only way they will be able to marry Bible from other Jewish chil Way they will be able to marry Beware — for children all the women are dressed modestly. For some people who grew up seeing pictures of a young Isaac No problem? Press's Jewish Children's Bible from other Jewish children's Bibles, says Pitspopany Press general manager Ya'acov. Peterseil:

The following is a tale of woe. It is the story of how a consumer columnist was put to a test - to put her proverbial money where her big mouth is and failed quite miserably. It is the story of my recent move to an apartment building, still under construction, and of falling prey to falling between the cracks.

Cutting corners on architect's fees, the contractor (and in this case, landlord as well) built the building as he went along, rather than working according to a blue-print. Aside from leading to pecu-liarities in the layout of the apartments, this frugality also led to a slew of other problems relating to infrastructure.

"Infrastructure" is the key to the smooth routine of day-to-day life which most of us take for granted while focusing on other matters, such as overdraft and Oslo. And as I came, unhappily, to learn, without "infrastructure," neither water, electricity, gas, telephone, nor cable TV is accessible.

Contractors know this even better than columnists. The contractor of my building knows this. He also knows how to flash a sexy white smile while lying through his teeth - an accomplishment which pays off handsomely, judging by the villa in which he dwells with his bejeweled wife, Benetton-clad children,

and live-in Filipina. It was thus that I was bamboozled into believing that on the day I was to move, there would be "no problem" where Pazgas, Bezeq, Aruizei Zahav, and others were concerned. Having received written confirmation from the phone company that my line would indeed be transferred to the new location on the date of my request, I felt confident that all would be well.

Or at least that I'd be able to phone for help if it wasn't.

Since it would take about a year's worth of columns to regurgitate the entire "tragedy" of errors which ensued since that date, I would like to zero in on the "contractor vs.

The electricism hired by the contractor was supposed to have finished the wiring and then to have informed us. He failed to do both. Furthermore, Bezeq technicians are at home on Fridays.

Then get them out of their homes!" I lose it totally. "It's not Bezeq's fault that the contractor is a liar and a crook," I say, "but I am your client. I pay my phone bills to you. If you know what the electrical problem is, just send somebody to fix it - on the double! Friday or no

That afternoon, a Bezeg technician miraculously appeared. He took out a small tool, inserted it into the socket in my wall, yanked at the cord inside of the wall until it emerged, and voila - there was a dial tone.

For this minuscule job I had to wait over two weeks?

The moral of this pathetic story is that even Bezeq will get a technician to work on his day off - even if the source of the problem is not technically its fault - if we demand Bezeq" segment, for comic relief, action and mean it (Though, admit-November 4: Fax request for tedly, if I had demanded the same phone transfer is confirmed by. been less successful.)

Regarding the contractor-cumlandlord to whom I must now pay monthly rent (heaven help me): It's a good thing the lawyer who wrote my lease included a clause awarding me \$100-a-day deduction from my rent, for every day that the apartment is not equipped with a long list of things - infrastructure

Now the contractor will have to. sue me, rather than me him, if he wants more money.

First, there is the fact that they have used the Hebrew text instead of the English King James Bible as the basis for their fivebook version - the first of which came out in September.

back of the book, so that parents and children can discuss the meaning of the stories in more depth. And lastly, they have included stories which most children's Bibles - both Jewish and Christian - tend to ignore, such as the story of Hagar.

"Most of the other Jewish children's Bibles on the market have one major problem: They don't deal with all the stories, and they are not age-appropriate. Very few children's Bibles deal with the story of Hagar and she is a very important character," said Peterseil, sitting in his downtown Jerusalem office from where he

directs the operation of Pitspopany Press, an English-language publishing house which sells Jewish children's books, mainly in the US. "They also don't deal with the hattle of Shechem and Simeon and Levi. We have to deal with this story, but very carefully so as not to

scare the children. Without delving into the rape of Dinah by the son of King Hamor of Shechem, the Children's Bible author - well-known children's writer Sheryl Prenzlau - tells how the son, Prince Shechem, captures Jacoh's daughter Dinah and wants to marry her, but Jacoh doesn't want to allow it. The

way they will be able to marry their women is by being circumcised, Simeon and Levi go into the city to rescue their sister and kill all the male residents.

When there was a question about a fact, or logic, in certain stories, Prenzlau used the commentary by Rashi to keep the stories consistent with Jewish tradition, said Peterseil.

Still, Peterseil admits, they could not include every Bible story in their version either, but he is confident they have covered most of the stories which children in their target audience of six- to nine-year-olds can understand, and also which can be properly

The illustrations were so important to them that they used three illustrators: Zely Smekhov, Daniel Goldberg, and Lena Guberman – all of whom, like Prenzlau, live here. The illustrations finally used in the book were first approved by a test audience of children - including Peterseil's own, as well as those of Pitspopany's production manager Chaim Mazo.

In the introduction to their Genesis, they explain how they consciously decided to portray all the Bible characters in vivid color, because trying to hide the faces of the characters woold have heen "too contrived." For example, they said, it would have been impossible to show the meeting of Jacoh with his son Joseph after many decades of separation without showing the emotion on their faces. Yet all the illustrations maintain an integrity to the religious appearance of the characters, noted Peterseil. All men wear head coverings, and

For some people who grew up seeing pictures of a young Isaac about to be sacrificed, the illustration in this children's Bible may appear a bit strange. The illustration shows a grown man following Abraham as he takes his son up to an altar. But this is a truer depiction of the event, said Peterseil - according to the Bible, Isaac was actually 37 years old when God told Abraham to sacri-

fice him. "The problem is that people start reading the King James ver-sion and other non-Jewish versions and those ideas seep into the Jewish world," he said.

Another example is the story of Jacob's ladder. In most illustrations the angels climb up and down on the same ladder. But in this version, they were careful to be faithful to the actual text which describes how the angels climbed down one ladder and up the other, said Peterseil.

This series is based on the philosophy that a children's book should be usable for everybody from Reform and Conservative, to Orthodox Jews. Everybody should be able to get what they want from the Bible," said Peterseil. "We are trying not to be didactic but we are also trying to be as true to the textual

writing as possible."

For example, he said, any reference to God in this children's Bible is non-gender specific. God is simply referred to as "God."

"It may seem like a small thing, but most Reform or Conservative Jews would not accept a book that has a male figure of God," said Peterseil. "It's a matter of being sensitized to their needs."

# Image is everything, when fooling Mother Nature

**GREER FAY CASHMAN** 

HANGING images is what the cosmetics, fragrance, and toiletries industries are all about. Since time immemorial they have existed to disguise our flaws, to almost magically enhance our features, and, in short, to improve the work of Mother Nature.

Through their very purpose, change has come to the industries themselves, with smoother; and sometimes more effective creams and lotions; backwards and forwards drifts between cream, powder, crayon and liquid make-up bases, lipsticks, blushers and eyeshadows; pencil vs. liquid eye-liners, cakey vs. fluid mascara and matte vs. shine finish.

Older women who've witnessed these evolutions and revolutions have more or less seen it all. The colors and the textures which go out of style at the end of one season come back three seasons, 10 seasons, maybe 15 seasons later. The rainbow choices in nail varnish which may be exciting to the under-20 age group are not unknown to their mothers and grandmothers, who've been through the blue and green fingernail phenomenon themselves, and who in many cases have had purple, green, copper and bright pink streaks running through their

Today's products may be more refined, but the concepts behind them are the sameto either shock or seduce, or maybe both, depending on what turns someone on.

Fragrances too have run the gamut from

There was always an air of class and a sense of mystique about Guerlain, Estee Lander, Oscar de la Renta, Givenchy, Chanel, and several other leading brands, which in some cases is wafting away.

Guerlain makes no secret of the fact that it is currently courting the liberated renaissance woman whose life is played without a script. Its new jamnty and audacious Champs-Elysees fragrance comes as a complete surprise to those who are familiar with Guerlain's Ysatis or Samsara, which are far more dramatic. Based oo hibiscus seed and almond wood, the heart of Champs-Elysees is mimosa hlossom and

huddleia and its floral top notes are formu-

lated from mimosa leaves, rose petals, blackcurrant berries and almond blossom. The combination, though quite pleasant, somehow doesn't fit the Guerlain image. But if it catches oo, past history will make no difference.

Packaging is a major factor in the image game, the philosophy being that what grabs the eye may excite some of the other senses as well. The packaging does not necessarily have to be fancy to achieve its target. Sometimes its very plainness and simplici-ty, as Calvin Klein has already proved, makes it auractive.

Take for instance Tommy, the new American fragrance for men produced hy fashion designer Tommy Hilfiger. The unadorned bottle which looks like a miniature whiskey silver-colored tin of the kind that men once used to carry their snuff or tobacco. The image it conveys is rugged but clean. The fragrance itself also coojures up a sense of crisp, unfrilled cleanliness, which is perhaps a necessity in an era of novo-punk.

And if we're reminiscing about revivals of former fads. Barbara Wolf is flogging a new, light, waterproof eyeliner which supposedly improves the shape of the eyes - a somewhat difficult feat since one can hardly see it.

Several years ago, cosmenes companies looking for a good gimmick for suckers, came out with a reverse psychology version of the emperor's new clothes - invisible mascara and eyeliner for those women who wanted to wear make-up without looking

#### Belgrade's time for change

often achieves more positive results than wishful thinking. Serbian leader Slobodan Milosevic demonstrated as much when, after too much bloodshed, he decided it was in his best interests finally to disentangle himself from the mess be helped initiate in the Balkans. There has always been a suspicion that Milosevic's idea of Greater Serbia itself contained a large element of self interest in that it followed the well-known pattern of a "foreign" adventure being used to consolidate his own power. That delusion has at last come back to haunt him as he faces a popular revolt oot seen in eastern Europe since the fall of communism.

With the Bosnian war at least stalled by NATO's forceful intervention, Milosevic stands exposed for what he is - an old-time communist clinging to dictatorial powers in the face of popular demands in the former Yugoslavia for more democracy. It has been a futile mythology that all ethnic Serbs in Bosnia, Serbia, Croatia, and probably Macedonia, could create a united Serb natioo across the borders and against the will of their oeighbors. It oow seems it may have been equally futile for Milosevic to think that this dream could for ever hide the reality of the grim dictatorship of old apparatchiks he heads in what is left of the former Yugoslavia - oow more accurately, though not officially, known

simply as Serbia. This week's demonstrations against the government began after Milosevic annulled an oppositioo victory in local elections beld on November 17. The intensity of feeling in Belgrade was clearly demonstrated by the tens of thousands who braved snow and icy weather to lodge their protest against this cynical exercise in dictatorship. Milosevic again showed his true colors by attempting to silence local media reports of the dissect. While the officially cootrolled media pretended oothing was happening, deoying areas outside Belgrade access to news

NLIGHTENED self-interest in politics the government moved against independent broadcasters who insisted on informing the pub-

> Dictators unfailingly miscalculate the effect of their edicts issued in the face of popular revolt and so it was Milosevic's decisioo on Mooday to silence Radio B-92 that sparked international outrage as the mask was taken from the true face of the Belgrade dictators. The European Union has rightly expressed its "dismay at the Serb authorities' determination to ignore calls from the international community for the full observance of international democratic principles. Radio B-92's transmitter was switched off on a spurious charge of illegality and the student Radio Index was also knocked

> If Milosevic thinks old-fashioned communist tricks are going to save him from the democratic climate swirling around him, it is to be hoped he will be proved badly mistakeo. Yet the Belgrade authorities may be able to benefit from the experience of the other communist era dictators from Moscow to Bulgaria and the Czech Republic, who were forced to cede power to popular revolt. The idea that he can avoid their "mistakes" may provide some temporary relief for Milosevic.

It is a relief which the international community must make as brief and uncomfortable as possible. Both the United States and Europe bave issued clear warnings to Milosevic that severe retributioo will follow if his regime resorts to violeoce against the peaceful demonstrators. It is a timely warning and it must be impressed on Belgrade that it is a deadly serious ooc. Violence from the Serb authorities would hardly be a novelty. The international community has a clear obligation to ensure they do not resort to it again, and if they do, the most painful sanctions must be invoked. Milosevic must be made to realize that there is oo place in Europe for any state whose people do oot have of the events except from foreign broadcasts, complete freedom and democracy.

Jeneral MID the gloom of the world's problems, tensioos and end-of-century uncertainties, it is refreshing to see one aspect of the buman spirit that refuses to bow to adversity. It is the spirit of adventure exemplified by the continuing space program, which once again made the headlines yesterday with the launch of the United States Pathfinder mission to Mars.

with Lot and everyone !

In fact, the space exploration effort has been oudging its way out of obscurity on several fronts this week as up-front oews reports covered the Mars launch, the technical glitches which failed to halt the enterprising astronauts oo the Sbuttle mission, and the intriguing discovery that water may exist at the south pole of the earth's otherwise arid moon.

What the current space efforts illustrate more than anything is how completely the United States has come to dominate the scene. At the end of the Cold War, there was much debate as to whether space exploratioo would wither, since it was no longer driven by defense-related rivalry, or whether it would blossom by combin-

ing the technologies of the two superpowers. Sadly, the Russian effort for the moment appears to have withered on the vine. But there was oo Western gloating over the receot disappointing crash of the Russian Mars Explorer mission after take-off. Everyone has come to realize that the frootier of space is oow Project Mankind and the failure of any important mission diminishes everyone's hopes. Of course the Russians continue to provide excellent informatioo oo the long-term implications of space travel from the impressive Mir space station, and most people who believe in the space adventure hope that Mir will turn out to be the focus of future Russian involvement in space, rather than a monument to its glorious past.

But for the moment, it is the Americans who carry the flag for the exploring spirit of mankind. Until the rest of the world can catch up and join the effort, all it can do is wish God's speed to Pathfinder and the men and women who undoubtedly will follow in its trail-hlazing

#### PARITY DEMOCRACY

LETTERS TO THE EDITOR

Sir, ~ I have just returned from future of their nations. the most extraordinary 10 days of my life, helping to train future women leaders among the Arab. Beduin and Israeli communities, as the guest of the British Council centers in East and West Jerusalem. I believe the qualities, culture, perspectives and outlook of the women of the Near East probably the world's most trou-hled and dangerous region - will be a major factor in bringing about peace and development with stability, if they are able, against very great odds (of hig-otry, social and economic disadvantage and religious intolerance), to have a major say in the London.

Parity democracy, as it is becommg known, where women are m the legislatures in numbers virtually equal to the men, is the last great frontier of democracy. Unless the majority gender helps direct the future of its communities, life will continue to be uncertain, out of kilter, improperly planned - and an affront to civilization itself. I urge all the political parties to aim for 50/50 women on their lists, and equally I urge women in huge oumbers to take that big step forward and put their names into the ring for elected office. #### WOMEN OF THE WALL

Sir, - The debate and coverage of the Women of the Wall is based upon three misconceptions. The first is that these women, as stated by Deputy Minister of Religious Affairs Yigal Bibi, can have their lives fulfilled by going to the beach, theater and, discotheques (November 14). His statement is a clear indication of the problem (and great challenge) that faces the Jewish State. Ironically that analysis and charge hold true for Israel today, where individuals are segregated into either Israeli or Jewish camps.

Second, with all due respect to Chief Rabbi Lau, the area of the Wali has not always been set up like an Orthodox synagogue. A

# Beilin's bid

SUSAN HATTIS ROLFF

T a press conference on Tuesday Yossi Beilin announced that he plans to cootend the Labor Party leadership on June 3, 1997.

"After Shimon withdrew [from the contest]," he said, "I felt there was no one in the party leading Peres's school of thought, which is the correct combination of peace and security."

Beilin's reasons are, of course. far more complex.

For better or worse the compromise reached between Peres and Ehud Barak - which Haim Ramon termed "a typical Mapai compromise, and not a very wise one at that" - means Peres really is on his way out unless Binyamin Netanyahu saves him with a national unity govern-ment, an offer Labor couldn't

The compromise set a rather tight timetable. First a meeting of the "old" party conference, elected back in November 1991, will convene in January and deal with constitutional questions like whether the new party chairman is to be elected in open primaries (Ramon's suggestion) or closed

Second, a meeting of the newly elected party conference will convene in May and deal with ideological issues, so that whoever becomes party leader is formally "shackled" by a generally agreed

Third, primaries for the new party leader will be held on June 3. This timetable poses a problem for Labor's "octet," of which Ramon and Beilin are the leading

members. Barak is already running at full speed and all the published opinioo polls say he is way ahead of any other potential contender. By cootrast Ramon, the most attractive candidate the octet can present, is having difficulties, some objective, others selfimposed.

Among the former is that to many members of the party Ramon's name is mud, for two reasons - both, I feel, totally unjustified.

Ramon is blamed for breaking un the Histadrut, or being responsible for its nakedness, even though he was just the boy who shouted. The emporer has no

He is also blamed for not placing Rabin's assassination at the center of Labor's election campaign, even though no one can prove that Peres would have got even one more vote had Rabin's blood oozed out of everyone's TV

sets in May. Ramon's self-imposed difficulties result from his not having yet made up his mind if he wants to contend the leadership or even remain in the party.

And this is the main reason Beilin has decided to enter the race, apparently with Peres's blessing.

One source very close to Beilin really believes Beilin has a chance of beating Barak, and that this oew move isn't (as another contender suggested to me) a trick to get a ministerial post in a possible national unity government, or a maneuver to gauge the power in Labor of the political camp Beilin represents for political baggling with

THERE IS no doubt that Beilin is a very different kettle of fish from

Barak if Barak gets elected

come June.

Barak\_ Barak is a former chief of staff. Beilin a bespectacled academic. Ideologically there isn't one issue on which Barak has expressed a clear position, while Beilin doesn't mince his words and presents precise ideas on a wide variety of issues that classify him as a pragmatic social-liberal dove.

Though Barak looks anyone facing him straight in the eye and gives them the (usually false) feeling that what they are saying is important, it is Beilin who is the master of the art of purposeful dialogue.

He did it with the Palestinians before and after Oslo, he did it with members of the National. Religious Party after Yitzhak Rabin's assassination, and he is currently doing it with several Likud members.

Does he stand a chance opposite Barak? I'm not convinced, especially since Barak has a winner's aura, something Beilin lacks.

But one thing is certain: Whatever the outcome of the contest on June 3 it is vital for Labor that Barak and Beilin find a way to work together as a team and not waste their energy on lifelong tivalry.

The two men complement each other. Between them they have enough IQ, initiative and imagination for three intelligent people.

# Unemployed and under fire

EAR Ruthie, porting my wife for 20° years (we have been married 25), I was fired from my job. For the past five years, my wife has had to

work to support us. I have been trying to find work, but haven't been able to do so. My wife has not been sympathetic. She says if I don't pull myself together, she will leave me I think this is highly unfair, since for all of those years, I was the main breadwin-

I've tried to explain to her that getting a job at my age (48), in my profession, is almost impossible. I am distraught. With no job and no prospects, if my wife leaves me, I will have nothing. Even my two sons seem to have contempt for me now. This makes it even more difficult for me to have the energy to look for a position. Can you help? Unemployed & Under Fire

Somewhere in Israel Dear U & U. It sounds to me as though your memployment is the symptom of a greater pmblem, rather than the source of the problem itself. And, undouhtedly, it is to the greater problem which your wife and sons

are responding negatively.

When initially fired, you probably lost not only your job, but a great deal of self-respect as well. This lack of self-respect may have created a vicious cycle whereby the characteristic you most project, whether to potencial employers or to your family, is precisely the one which has prevented you from gamering necessary outward support. Then the less outward support you receive, the more you become coovinced of your inner weakness. It is this, perhaps, which is sapping your energy, and making any attempt to break the

vicious cycle Sisyphean, at best. Clearly your first order of business should be to get professional helo. If your financial situation makes private therapy impossible, you can seek social services provided through most municipalities.

Dear Ruthie,

After having been married for 10 years to a man with very little appetite for sex (and when we did have sex, it was very dull). I have been experimenting with various relationships - some merely sexual, and some in which emotion is also involved.

A couple of months ago, I met someone who is very kind and loving, and to whom I am developing a strong attachment. The problem is that in bed he is very different. He becomes almost violent at times (though he's never actually hurt me), and he likes to engage in strange sexual activities (which I won't go into here). This worries me, because I think maybe there's something wrong with him, and yet he is really o wonderful person. Should I talk to him about my fears? I feel uncomfortable about it.

Sex Speech Shy Somewhere in Israel Dear SSS. Before talking to him about

what's troubling you, you would do well to have a long talk with yourself. Sexual attraction is a gut reaction aroused by impulses within ourselves. Often these impulses are too automatic to be examined. Unfortunately, these impulses are often negative.

It is possible that your initial attraction to this man was based unconsciously oo his "strange" and "violent" sexuality - rather than on his "kind and loving" nature. If so, you may be rolling down a slippery slope into an abu-sive relationship. If so, you may consider seeking some help.

If not, you should at least be able

to discuss your hesitations with a man to whom you are growing attached

Meanwhile, ask yourself why engaging in sexual acts you consider dubious is easier for you than engaging in candid discussion about them.

IN academic courses, in campus forums and workshops, col-leges nationwide are embrac-Students are curious about what it ing a new subject to study and debate: Men.

At Colorado State University last month, hundreds of students flocked to campus sessions on masculinity, including one titled: "From Intimacy Phobic to Intimacy Junkie: A New Path for Men." At Hobart College in New York, faculty are tackling the topic with a class called "Theories of Masculinity." In it, students have explored the male predicament by reading, among other works, the novel Deliverance.

The University of Michigan held a campus symposium on manhood earlier this semester. Ohio University has a new course called The Nature of Men." Students at Long Island University have created a "Black Men's Forum." At the University of Illinois, dormitory counselors are leading student discussions on male roles and identi-

College faculty say interest in studying the history and psychology of men, or what it means to be masculine, is a reflection of other trends evident across American culture - from best-selling books on male spirituality, to last year's Million Man March on Washington, to Promise Keepers a national movement that urges men to root their lives in Christianity and family.

"More colleges are seeing a need for this," said Guy Davis, an administrator at the University of Illinois who develops workshops on men for that campus. "A lot of young men today don't know who they are, or who they're supposed

to be, in this society." That concern is hardly overwhelming academia - yet. But some are taking the matter seriously. They contend that the increasing academic attention faculty and students are giving men is

similar to the rise of women's studies in the 1970s. That comparison is stirring both hope and alarm.

Hundreds of colleges have academic programs that focus on women. Some of them are welcoming the new interest in studying men and are busy promoting discussion on the subject. On other campuses, however, there are fears that what is emerging is - in part a hostile reaction to feminism, or the strides women are continuing to make in the work-

place.
This is quite a phenomenon on some campuses," said Abigail Stewart, a psychology professor who directs the women's studies program at the University of Michigan. LTHOUGH it may be hard to believe, Cuban President Fidel Castro may just have a soft spot somewhere in his heart for Israel, thanks to Dr. Ricardo Wolf, a German Jew who immirated to Cuba before World War I. And thanks to that same man, one of the world's prestigious academic awards in the areas of medicine, agriculture, chemistry, physics, and the arts are awarded

Announcement of this year's Wolf Foundation Prize winners began the second week of November, and the \$100,000 prize money in each category will be presented to the winners by President Ezer Weizman at the Knesset, in April. So far this year, announcements have been made of the winners in

the categories of mathematics, medicine and agriculture. American mathematician Joseph B. Keller of Stanford University and Russian Yakov G. Dr. Mary Frances Lyon of the Briosh Medical Research Council's Radiobiology Unit was this year's medical prize laureste for her research into mammalian biology which has helped in the detection of disorders linked with the female X-chromosome, and Neal L. First of the University of Wisconsin was named winner of the agriculture prize for his pioneering research in the reproductive hiology of livestock.

The Wolf Prize was the first academic award field of agriculture, and over the years some 16 Wolf Prize recipients in the fields of

It all began when Wolf, who had studied chemistry in Germany before coming to Cuba, sucreeded in developing a process for recovering iron from the residue of the metal smelting process. His invention was used in steel mills all over the world, making him a rich man. Yet, he remained a fervent socialist and when Castro began his revolution, Wolf supported him both financially and morally.

After Castro succeeded in toppling Cuhan leader Folgencio Batista y Zaldivar, the communist leader showed his gratitude for Wolf's help by allowing him to choose any position he wanted within the government. Wolf chose the post of ambassador to Israel, and established the Cuban Embassy in Herzliya in 1961. The only other non-Cuban permitted to serve in the government was the Argentinian revolutionary Che Guevara. A special law was passed to allow the two men to become part of Castro's govern-

"Dr. Wolf was a socialist and a Zionist," said Yaron Grudder, general manager of the Wolf Foundation. "He saw Israel as a country Cuba should my to emulate. He sent a lot of technical and agricultural expens to Cuba from Israel. He passed on to Castro his love for Israel."

The love affair ended, however, in 1973, when Cuha followed many other developing countries and severed diplomatic des with Israel in the wake of the Yom Kippur War and the Arab boycott. Wolf, then aged 86, decided to remain in Israel - a move which did not please Castro.

Dr. Ricardo Wolf saw Israel as a country Cuba should try to emulate.

In 1975 Wolf, together with his wife Francisca Subirana, who had been a tennis champion in her native Cuba as a young woman, set up the Wolf Foundation with an endowment of \$10 million from the royaldes from his inven-

tion. Though she was not a Jew. Subirana chose to remain in Israel with her husband. Wolf died in 1981, and less than a month later, so did his wife.

forces in society making people - reading-can suddenly surface on the pages of respectable publications around the world.

"What happens on a slow news day is that stories that are kind of timeless or 'featurey' in quality or require a great deal of background material get pushed onto the front page," said Leo Bogart, author of Commercial Culture: The Media System and the Public Interest.

This can be very interesting. and my own bias is that the most important news is often not what we see or read but what's churning under the surface."

In this view, slow news sometimes means better news - more thoughtful news, more correct news, news that lasts more than 24 hours.

Stories like the first big change in meat inspections in 90 years suddenly move from a lesser spot on the front page of the New York Times to a larger headline that signals a historic event. Earlier this year in the Los Angeles Times, the front page had room for a story on how spring arrived earlier this year due to global warming.

On the other hand, there are those like Syracuse University political science professor Thomas Patterson, who sees less big news as meaning there is simply more little news to replace it.

"My own feeling is that in many cases, less is less, not less is more," he said.

In the argot of the news trade. this is called hype, and it can sometimes be so well done that it is self-delusional. Journalists involved in a story begin to see it

as the story. "Journalists are very much in the business of persuading us that there's stuff going on and that it's crucial at all times," said Mitchell Stephens, professor of journalism at New York University.

Others note that news has its eycles just like other human endeavors. In particular, the dog days of summer can often mean the silly season for the serious

Herbert J. Gans, the Columbia University sociologist who wrote the journalism text Deciding What's News, says that because what becomes news on slow days

viewers ought to know exactly how newsworthy the day really is. "I've always thought that at the beginning of a program or on the froot page of the newspaper, there should be a notation that says, on a scale from one to 10, whether this was a slow news day, or a fast

#### January-September jobless rate down to 6.5%

JERUSALEM POST STAFF

ISRAEL'S unemployment level stood at 6.5 percent during the first three quarters, down 0.4% from figures for the same period last year, the Central Bureau of Statistics announced yesterday.

The number of unemployed in September, who had been working during the previous 12 months. totaled 76,000, similar to the figure a year earlier. However, there was a reduction of 6,000 in the number of people who had been without a joh for more than a year - down to 64,000.

The number of out of work men increased 0.3% to 5.8%, while the total for women dropped 1.3%, to

The seasonally adjusted figure for the third quarter stood at an average 140,000, or 6.4% of the work force, a similar figure to that in the previous three months. Among men unemployment was at 5.7%, and women, 7.4%.

The number of unemployed actively seeking work during any given four-week period was 155,000 in the three mooths to September, a similar figure to that registered last year.

The overall civilian work force (including Judea, Samaria and Gaza) reached an average weekly 2,182,000 from July to September, a 2.3% increase on the same period last year. This was mainly because of a 3% increase in the proportion of the population aged 15 and over.

The total work force (excluding the territories) averaged 2,027,000 in the third quarter, up 3.3% on the comparable figure in 1995.

Labor and Social Affairs Minister Eli Yishai promised last month to make fighting unemployment a major target for his ministry next year.

.The acasonally adjusted number of people registered as actively seeking employment fell 3.2% in October to 118,500, according to the ministry.

unemployment was registered in the eastern Negev (9.5%), and the south (7.4%). Nine towns registered unemployment levels higher than 10% in October. They were Ofakim (14.2%), Mitzpe Ramon (12.5%), Yeroham (12.4%), and Kiryat Gat 12%. In September, only five areas reported higher than 10% jobless totals.

In the longer-term the Finance Ministry prediets unemployment will diminish over the next five years, but expects an ioitial increase to a predieted 6.6% in

At first, the ministry and PAG dumped the German said P&G dumped the German Pampers at as much as 41 percent below market prices and determined that P&G's alleged dumping harmed Israeli producers and cut into Amir Papers' profit.

In the latest decision, the ministry's commissioner oo trade duties concluded the dumping margin was actually 30%. The ministry said that was the difference between the export price of the German-made diapers and the price at which they were sold in Germany by a P&G subsidiary.

The commission then mandated

P&G to post a temporary bond at a rate of 7.2%, which is the difference between Amir Papers' pretax profits in 1993 and in 1995, on all Pampers dispers sent into Israel, pending a final ruling by the trade ministry. Earlier this week P&G said it

# Shares rise as shekel declines again

TEL AVIV STOCK MARKET

FELICE MARANZ

Maof index

SHARES climbed for a second day as investors expected the shekel to continue to weaken against the US dollar, helping

exporters' profits. Tradiog exceeded NIS 100 million for the second day as

Stocks had soared Tuesday as the shekel weakened to its lowest point against the dollar since Prime Minister Bioyamin Netanyahu's coalition was electchanged today at 3.29 versus 3.292.

Leading the market higher vere Teva Pharmaceutical Industries Ltd., which represent nearly 10 perceot of the Maof Index, Elbit Medical Imaging Ltd., huilding materials producer Ackerstein Industries Ltd., and developer Industrial Buildiogs.

The currency often weakens at year's end as companies close out dollar-denominated loans oo their books, said Daniella Finn,

head of research at the securities

firm Batucha in Tel Aviv. They effectively buy back the loans with shekels, weakening the local currency. Closing out the loans minimizes currency risk just before the fiscal year

Batucha expects the currency to devalue as much as 10% in 1997 to around 3.55 or 3.6 to the dollar assuming inflation continues to moderate and the central bank reduces interest rates, Finn said.

The Maof Index added 0.39% to 214.57, while the Two-sided Index climbed 0.74% to 203.94. Across the Tel Aviv Stock Exchange, NIS 100.7m. traded, 72% greater than last month's daily averaged of NIS 58.6m. More than three issues elimbed for every one that declined.

# Eurobourses drop, hit by US decline

WORLD MARKET ROUNDUP

LONDON (Reuter) - European bourses ended sharply down yes-terday as Wall Street retreated fur-ther only a day after US stocks numbled to their biggest loss in five months.

On currency markets, the dollar regained some poise after a choppy performance ended its rally to a 23-month peak against the mark on Tuesday. Sterling weakened amid fears that its recent strength -could harm British industry.

The losses on European bourses ended a record-breaking pace on much of the continent this week fuelled by investors who saw the recent strength of the dollar as a boon to exporters.

London and Paris shares ended showing losses as Wall Street fell 0.4 percent, a follow-on from the wave of profit-taking oo Tuesday which wiped 1.21 percent off the Dow Jones indus-

Frankfurt finished with a loss of 0.72% after hitting a record close of 2,886.98 points on Tuesday.

European bourses were depressed by Tuesday's big fall on Wall Street. Comouter-driven sell

programs in New York kicked in during a frantic last 10 minutes of trading to lock in profits after the Dow rose 500 points, or 8%, in But the gloom in London, where

stocks fell 0.44%, was slightly offset by the the weaker pound which was seen as helping the exporting sector. The FTSE 100 index of leading British shares ended 16.3 points lower at 4,045.2.

French stocks suffered the biggest knock from Wall Street, ending down 1.7% after a strong performance this week. All CAC-40 stocks closed with losses, apart from Euronanel which advanced as the Channel Tunnel reopened. Lagardere fell 7% to 145 francs,

hit hard by suspension Thomson privatization. In Paris, the CAC-40 share

index finished down 40.46 at 2,308.65. Frankfurt closed down 0.7%,

sapped by Wall Street's fall and the weaker dollar, after a day of quiet trading.
The 30-share DAX index in

Frankfurt closed down 20.91 at 2.866.07.

# Dow drops for second day as profit-taking sweeps market

WALL STREET REPORT

NEW YORK (AP) - Stocks fell with bonds yesterday as a wave of profit-taking hit the markets for the secood straight session, but they recovered toward the close amid some bargain hunting.

On Wall Street, the Dow Jooes iodustrial average dropped 19.75 points to close at 6,422.94, after rebounding from a 75-point deficit over the last hour. On Tuesday, the Dow slid 79 points, most of it in the last hour, as traders locked in big gains from last month's oearly 500-point advance by the bluechip barometer.

Broader stock measures also recovered as the session wound down. The Nasdaq market snapped its streak of seven-consecutive record closes as the highflying technology sector suc-eumbed to the selling pressure. After an early follow-through to late Tuesday's pullback, the ses-

sion turned sluggish with bonds trading almost unchanged. Despite the absence of any

alarming news in a Federal Reserve report on the economy,

boods began sliding in the early afternoon amid some profit-taking, pulling stocks lower as the yield oo the 30-year Treasury bond, a key determinant of corporate and consumer borrowing costs, jumped to nearly 6.40% from late Tuesday's 6.36%.
Among the NYSE's most active

issues, Continental Airlines' class B shares rose following reports the Houstoo-based carrier is discussing a merger with Delta Air Lines, which also was up most of the day.

Declining issues outnumbered advancers by more than a 4-to-3 margin on the New York Stock Exchange, with 1,076 up, 1,458 down and 779 unchanged. NYSE volume totaled 493.70

million shares, vs. 515.66 million in the previous session. The Standard and Poor's 500stock index fell 3.18 to 745.10, and the NYSE's composite index

fell 1.62 to 393.23. The Nasdaq composite index fell 3.35 to 1,297.02, and the American Stock Exchange's market value index fell 3.19 to 588.99.

IT was a good night for Israeli teams in European competition last night, as Rishon Lezion and Galil Elvon edged out their Greek opponents, while Hapoel Jerusalem thrashed Cyprus's Nicosia club.

Mac. Rishon 62, Sporting Athens 61 Leadell Eackles's only point of the second half, a free throw with just six seconds remaining, provided host Rishon with the slim margin of victo-ry. A rematch will be played on Wednesday with the aggregate winner moving on to the round of 16 in Korac

Cup Competition.
Rishon's disorganized, haphazard offense has been a source of turmoil all season long. Last night, coach Roni Bosani's club went back to the basics, pounding the ball inside to James Gully while taking the outside shot when it was available.

The inside-outside combination reached its zenith almost midway through the second balf. With Rishon down 40-38, sharpshooter Alexander Nikolic and Gully switched off scoring on four consecutive possessions, opening up a 48-43 Rishon lead.

The Greeks refused to back down though, and terrific second-half performances by Demitrius Avdalas and Yanis Gakis kept Athens within strikmg range. Even when Nikolic converted a rare four-point play to extend Rishon's lead to 56-49 with 5:30 remaining, the Greek duo converted Sporting's next eight points to cut the gap to 58-57. Nikolic converted yet another three-pointer to extend the lead, however Andres Guibert and Avdalas scored to tie the game up, set-ting the stage for Eackles's game win-

Gully was outstanding throughout, scoring 17 points along with 20 rebounds. Nikolic tossed in 15 while Doron Jamchee contributed 11. For Athens, Guibert had 21 points and 14

rebounds while Avdalas tallied 17. Galil Elyon 95, Macedonia 79 Alon Stein's 20 second-half points helped the bosts overcome an otherwise shoddy performance as they defeated the Macedonians. The victory leaves the northerners with a realistic chance of reaching the next stage of the

#### European Cup Competition, needing a Macedonian loss next week coupled with a nine-point victory of their own.

The score was close for most of the game, but as the game's end neared, David Blatt urged his troops to open a big lead in anticipation of next week's vital game. Stein complied, scoring 15 poiots over the last five mioutes, breaking open a 73-69 score. Before Stein went on his scoring spree, Marc Carver scored all 13 of his points in the preceding nine minutes helping Galil maintain a slight lead.

The first half featured different stars, as Gur Shelef and Jason Dixon shared the offensive load. The tandem combined for 32 of Galil's 44 first-half points, enabling the northerners to

overcome a rare poor performance from Andrew Kennedy. Hapoel Jerusalem 90, Nicosia 62 Doron Shefe (16 points). Motti Daniel (14), Dan Bingenheimer (13), and Adj Gordon (10) proef the way as and Adi Gordon (10) paced the way as Hapoel cruised to victory against their overmatched opponents.

## Panionios should be pushovers for red-hot Maccabi

MACCABI TEL AVIV gets a Hanukka present of sorts tonight from the Euroleague schedulemaker: a home game vs. lowly Panionios (Channel I. 20:45), who dispel the myth that all Greek teams are tough nuts to crack. Indeed, based on the current form of both clubs, Maccabi should have no difficulty beating the Greek squad, which oot only has been floundering in European play, but is near the bottom of the Greek league as well.

A look at the Euroleague statistic sheets shows just why the Greeks have been geeks so far this season: the problem starts with the club's performance from the foul line, where they're just 118-190, or 62.1 percent. Former Houston Rocket Mitchell Wiggins is largely to blame, as he's hit an amazingly low 40%, making only 12 of 30 free throws. Wiggins makes Shaquille O'Neal look like Brad Leaf (18-18) at the line.

Wiggins's performance, or lack of one, has been one of the key reasons for Panionios's demise so far this Euroleague season, but so far the club has not made any move to replace him.

The club's other foreigner, Keith Gatlin, has been much better, and is the man Maccabi will have to watch out for tonight. Gailin is averaging just under 13 points a game, and shoots a solid 43.2% from three-point range. He hasn't ARYEH DEAN COHEN

beeo infected by foul-shotitis, shooting a fine 85.7% from the

Greek national squad star Theofanis Christodoulou is also a fierce competitor, and has to he wondering why he's been made to suffer through such an embarrassing season with Panionios, who are tied with Limoges at the bot-tom of Group A at 3-5. However, he could start by checking his own shooting stats: 9-33 from twopoint range, not exactly what was

expected of him, either. Other Panionios starters include Garric Hammink and Vasilios Kikilias, the latter just 1-10 from beyond the arc so far. George Kalaitzis and Miroslav Mylonas-Patsarski come off the bench, but pone have been able to do much to get the sluggish Greek offense more than about 74 points a game. Maccabi Tel Aviv, oo the other hand, is probably in its best shape

of the Euroleague seasoo. Not only are most of the players rested after the break for the national squad's game vs. Slovakia, but three of its players - Nadav Henefeld, Oded Katash and Doroo Sheffer - used that matchup for target practice as they led Israel to an easy victory. Reserve center Constantin Popa had a fine game vs. Hapoel Holon this week, and the club's confidence seems to

have been buoyed by the impres-

Milano two weeks ago. With the game expected to he relatively easy, Sherf ought to use the occasion to tune up some of his subs for the long Euroleague road still ahead. Borko Radovic could use some playing time, as could Derrick Sharp. Look for the two to see plenty of action once the Sheffer-Katash duo finishes running rings around the Greeks.

sive away victory over Stefanel

However, Maccabi shouldn't be overconfident. After all, in the first match-up between the two clubs in Athens on October 10, sloppy play by Maccabi let Panionios back in it. Sheffer pulled Maccabi out of the muck, however, scoring six late points to earn his team the 74-69 victory. Both Gatlin, with nine points, and Wiggins, with 7 including 1-6 from the foul line played poorly in that game. Henefeld led a balanced Maccabi attack with 14, and is on form to do it again tonight.

Maccabi is hoping to give its fans at Yad Eliahu something to cheer about tonight, as opposed to something to tear their hair out about in the home losses to first CKSA Moscow and then Limoges. From that standpoint, Panionios is just what the doctor ordered, and barring unforeseen developments, Sherf's charges should particularly enjoy unwrapping their Hanukka present tonight.

#### **Manchester United beats** Rapid for quarter-final berth

VIENNA (Reuter) - England's Manchester United booked a berth in the quarter-finals of the European Cup with a 2-0 victory over Austrian rivals Rapid Vienna in their final Champions' League match last

The victory gave United second place in Group C, seven points behind holders Juventus but two ahead of Turkey's Fenerbahce who lost 2-0 to the Italians in Turin.

Ryan Giggs opened the scoring for the English club at the Ernst Happel stadium with a spectacular shot in the 24th minute from a pass by Eric Canton

MACCABI Tel Aviv stars Avi Nimni and Gadi Brumer were invited for a trial with English Premiership side Sheffield Wednesday, Israel Radio reported last night. If the two Israel internationals find favor with the Yorkshire side and manage to work out terms, they could become the fourth and fifth Israelis to be playing in the English Premier League, following in the footsteps of Ronnie Rosenthal, Eyal Berkowitz and Ronnen Harazi.

Harazi, the latest Israeli export, will begin playing Sunderland later this month.

The fax from Wednesday was a surprise for Maccabi Tel Aviv, who did not expect the Sheffield side to ask to try out two of their players. Maccabi already knew that Chelsea was interested in midfielder Nimni and daring the summer Manchester United was said to have wanted to give defender Brumer 8 tryout. Sheffield Wednesday has asked

for the two to fly out next week so that they can train with their squad. But it is also the time when Shlomo Scharf will convene his squad for

the World Cup qualifier with Luxembourg on December 15. Brumer is ruled out of that match because of an ankle injury which needs extensive rest, so he may need some more time before he even goes for a trial. Nimni has to decide whether to stay in

Chelsea player-manager Rund Gullit has invited him for a trial next week as well. Scharf has released Harazi from

#### Agassi loses in straight sets at Grand Slam Cup

MUNICH (AP) - After the frustrations of the last three months, Andre Agassi had the opportunity to end the year ou a more positive note. He never really tried.

Agassi made a brief appearance at the Grand Slam Cup yesterday, offering little resistance in a 6-3, 6-4 loss to Mark Woodforde, who had failed to win a game in their last encounter and had never beaten Agassi in three previous matches. It's been a struggle most of the

gold medal (at the Olympics). But outside that, it's been a struggle. "I just want to put it behind me and and get ready to move on. I don't need any miracle core. I just need to go back to good old fundamentals," Agassi said.

The last time Agassi played Woodforde, he beat the Australian doubles specialist 6-0, 6-0. While Agassi bowed out, Jakob Hlasek took a break from retirement and used it to beat Cedric

Pioline 2-6, 6-3, 6-4. Hlasek was only an alternate for the event and had already announced his retirement. But the withdrawal of five players, including top-ranked Sampras, opened a spot for Hlasek and he seized the opportunity to earn some extra Christmas money.

Also yesterday, Goran Ivanisevic beat Mikael Tilistrom. Ivanisevic blasted 18 aces to win 6-4, 6-2. Yevgeny Kafelnikov, the French Open champion, defeated Alex Corretja, 6-4, 7-6(7-3).

#### DANCE

HELEN KAYE

THE centerpiece of the eighth Chamber Dance festival is Vexations, the nine-hour piece for piano, dancers, and video, in which 15 dancers perform 13 dances especially composed for the event. There'll also be rare dance videos. Composer Eric Satie (1866-1925) decreed that his one-minute piece Vexations should be played 840 times. They last did that in 1988, and it took about 18 hours and a relay of pianists. Here, 8 relay of young, enthusiastic and volunteer pianists from academies and performing arts schools will play live. They include Satie specialist Michal Tal. Shai Wosner, Yonatan Niv and Alma Gelbetz, The

Mowgli in 'The Jungle Book.'

dancers include Clara Gorstin, Tamir Gilad and Michal Shahak. At Gerard Behar in Jerusalem tonight at 8:30.

#### CINEMA EUROPA

ADINA HOFFMAN

CARLO Mazzacurati's The Bull is a surprisingly lyrical buddy movie that centers on a pair of Italian bull breeders and the animal they steal and smuggle into Croatia in hopes of making some quick cash. There are many fine things about the film: The main actors, the lush cinematography, and carefully understated political commentary, in particular. The most notable element of The Bull, however, is without a doubt the title character himself, a lumbering creature with a ring in his nose and the big, damp eyes of matching molten

The hull rests quietly at the center of the movie much the way the two-wheeler did in De Sica's The Bicycle Thief - as both symbol and actuality. The combination of elements both tactile and allegorical, personal and political, lifts Mazzacurati's film well beyond its modest frame. In Italian, with English subtitles. (Cinematheques: Tel Aviv -Saturday 9:30 p.m.; Jerusalem - Sunday 9:30 p.m.; Haifa, Monday 7 p.m.)

# **Bomb found at Paris** Jewish newspaper

· THE editor of a Jewish weekly newspaper in Paris received a parcel bomb this week, raising fears of a new wave of terrorist attacks.

The package contained two video cassettes connected to an explosive device. It was delivered to the offices of Tribune Juive Tuesday, a few hours before another homh exploded at the Port-Royal subway station, killing two people and wounding 79.

The package was addressed to editor Yves Derai and marked 'personal and confidential." It was delivered by two men who were ) said to look like Arabs. Derai tried to open the package, but found one of the cassettes stuck to the envelope. He ripped it apart, instead of sliding the cassette out, then noticed some wires.

That's wby I didn't trigger the detonator," Derai said. Derai evacuated the office and called police. who found a bomh made of chlorate in a gas cartridge.

# Jerusalem father gets 15 years for raping two girls

A JERUSALEM father of seven was sentenced to 15 years' imprisonment yesterday by the Jerusalem District Court for raping, sodomizing and molesting two girls aged. six and 10.

The girls were the children of a couple who had welcomed the 38year-old man into their home as part of the family. He was arrested a year ago after the sexual abuse had continued for an extended period. When he raped the girls, he would quote passages from the Bible, in which he said sexual rela-

tions were permissible. The man told the judge in court that the girls had enticed him by

acting promiscuously. The girls' parents testified that the girls had become emotionally

disturbed. They were thrown out of school and excommunicated from the community.

In their ruling, the judges noted that because of the man's "despicablc acts on innocent children" the chances of the girls finding husbands in the haredi community
